MARKING GUIDELINE

**NATIONAL CERTIFICATE
INFORMATION PROCESSING N6**

27 May 2021

This marking guideline consists of 43 pages.

SECTION A

TYPING TECHNIQUE

SECTION A: TYPING TECHNIQUE (200)

THE CANDIDATE CANNOT FAIL BECAUSE HE/SHE COULD NOT COMPLETE OR PASS THE TIMED ACCURACY TEST.

1. This mark for typing technique (200) is added to the word processing mark (100) to obtain a mark out of 300, which is converted to a mark out of 100 (percentage). This mark must be sent to the CD: NATIONAL EXAMINATIONS AND ADMINISTRATION.
2. Accuracy errors must be indicated with a RED /. REPETITIVE accuracy errors per question must be indicated in a RED CIRCLE.
3. DISPLAY ERRORS must be indicated with a BLUE X. REPETITIVE display errors per question must be indicated in a BLUE CIRCLE.

QUESTION 1: MARKING SCHEDULE – TIMED ACCURACY TEST

25	8	9				
26	8	9				
27	7	8				

QUESTION 1: TIMED ACCURACY TEST**MARKS: 20****NOTE: RED / = ACCURACY ERRORS**

SPEED SHOULD BE MARKED WITH CARE AS IT MAKES A DIFFERENCE TO THE RESULTS. REMEMBER THAT ONLY ACCURACY IS MARKED.

MARK ACCORDING TO THE ENCLOSED DEPARTMENTAL SCHEDULE.

MARK ACCURACY ERRORS ONLY.

Indicate accuracy errors with a red slash (/).

One or more incorrect characters in a word – 1 error.

Do not penalise incorrect margins.

Do not penalise incorrect line spacing.

Do not penalise incorrect hyphenation.

Do not penalise incorrect capital/small letters.

Do not penalise incorrect letter spaces.

Do not penalise incorrect alignment.

Do not penalise any display errors.

Do not penalise if a whole line or paragraph has been left out and keyed in at another position.

When exactly the same word is repeatedly keyed in incorrectly, it is penalised once only per question. Thereafter it is encircled as a repetitive error.

QUESTION 1 (CONTINUED)

Omission of words: Count the first 5 strokes and thereafter every 10 strokes as 1 error each. If the last few strokes at the end are 5 or more, count as another error. If the last few strokes at the end are less than 5, ignore.

If 50 wpm is not completed, count back as indicated in the marking guideline.

The highest mark obtained must be indicated. The highest speed passed must be indicated.

Indicate the speed obtained with Pass 50 wpm/Pass 55 wpm/Fail where applicable in the following way:

INDICATE AT THE END OF THE TIMED ACCURACY TEST:

Pass 50 wpm/Pass 55 wpm/Fail; Errors; Mark

INDICATE ON THE FRONT OF THE FOLDER DIRECTLY NEXT TO THE MARK OBTAINED FOR QUESTION 1:

Pass 50 wpm/Pass 55 wpm/Fail

INDICATE ON THE FRONT OF THE FOLDER JUST BELOW THE CIRCLE FOR THE MARKS OBTAINED:

Pass 50 wpm/Pass 55 wpm/Fail

Should a candidate fail the examination (less than 40%) and pass the timed accuracy test, the word Fail replaces the Pass 50 wpm/Pass 55 wpm, as a candidate cannot fail the question paper as a whole and get recognition for the wpm.

QUESTION 1 (CONTINUED)

There is little debate, if any, among economists about the fact that a high level of economic growth is essential for poverty reduction. Indeed, increased growth rates, effectively measured by rising per capita income, make this link clear and simple. If economic growth increases, poverty levels in society decrease. However, a more detailed assessment of these incidences worldwide indicates that there are two important caveats to the general view that economic growth is to the advantage of the poor.

Firstly, the impact of economic growth on poverty differs significantly in various countries. Research done by the World Bank indicates that depending on the country a two-percent increase in growth rates will result in a reduction of poverty ranging from one to seven percent. Secondly, as income grows, there is a high likelihood that this will also affect the distribution of that income. Put differently, economic growth often brings with it some change in the levels of inequality of income.

When this occurs and the result is an increase in inequality, the growth gains to the poor may in fact be reduced. Higher inequality levels from growth through the deleterious impact on the distribution of income dilute the impact of economic growth on poverty. Given these two caveats to the growth/poverty

QUESTION 1 (CONTINUED)

nexus, the critical insight is that economic growth is necessary, but it is certainly not the only condition for poverty reduction in a society.

While the shifts in poverty between 1995 and 2005 were noted in the analysis above using the standard class of poverty measures, it remains important to try to estimate how the growth in expenditure by the poor has fared relative to that by the rich over this period. As a starting point for the analysis, growth incidence curves for this period were examined according to a set of covariates. Essentially, the approach allows researchers to determine whether growth in expenditure in this period has been pro-poor in nature by plotting the growth in expenditure across each percentile of the distribution.

In the growth incidence curve for South Africa for the period 1995-2000, the growth in expenditure per capita of the population, arranged according to ascending percentiles of the distribution, was examined. It is clear from the growth incidence curve that growth in per capita expenditure was pro-poor in the absolute sense, with all the individuals across the distribution experiencing positive growth between 1995 and 2005.

 50 wpm

QUESTION 1 (CONTINUED)

Pro-poor growth can be considered absolute if the change in expenditure/income levels of the poor over a given time period is not zero. The expenditure levels of the poor have increased in absolute terms. Pro-poor growth

QUESTION 6: AFRICAN LANGUAGE

MARKS: 20

20 MARKS – ACCURACY – 3 marks per error

– Every keying-in error

0 MARKS – DISPLAY – no marks

NO MARKS WILL BE DEDUCTED FOR DISPLAY ERRORS

1. Do not penalise incorrect margins.
2. Do not penalise incorrect line spacing.
3. Do not penalise incorrect hyphenation.
4. Do not penalise incorrect capital/small letters.
5. Do not penalise incorrect letter spaces.
6. Do not penalise incorrect alignment.
7. Do not penalise any incorrect display.
8. Do not penalise if a whole line or paragraph has been left out and keyed in at another position.
9. When exactly the same word is repeatedly keyed in incorrectly, it is penalised once only per question. Thereafter it is encircled as a repetitive error.
10. Omission of words: Count the first 5 strokes and thereafter every 10 strokes as 1 error each. If the last few strokes at the end are 5 or more, count as another error. If the last few strokes at the end are less than 5, ignore.

20	-	20
----	---	----

[20]

TOTAL SECTION A: 200

SECTION B: WORD PROCESSING (100)

1. The total of this section is 100 marks. 80% of part A of each question is allocated for accuracy and 20% for display. 80% of the marks of part B of each question is allocated for processing and 20% for accuracy.
2. Part A of each question must be keyed in correctly.
3. Part B of each question must be processed according to the instructions.
4. ONE mark is deducted per error – accuracy as well as display and processing.

ACCURACY ERRORS = All keying-in errors
 DISPLAY ERRORS = All display errors
 PROCESSING ERRORS = All processing instructions

5. Questions in part A not completed will be marked accordingly.

If only $\frac{1}{4}$ of a question is completed, only $\frac{1}{4}$ of the original mark will be used for the marking of the question. If only $\frac{1}{2}$ of a question is completed, only $\frac{1}{2}$ of the original mark will be used. If only $\frac{3}{4}$ of a question is completed, only $\frac{3}{4}$ of the original mark will be used.

EXAMPLE

TOTAL MARKS = 20
 ACCURACY = 16
 DISPLAY = 4

$\frac{1}{2}$ of the question is completed, mark as follows:

$\frac{1}{2}$ OUT OF 16 = 8 MARKS
 $\frac{1}{2}$ OUT OF 4 = 2 MARKS

The question is marked out of 10, but the mark is allocated out of 20:

7	1	=	8	=	8
8	2	=	10	=	20
1e	1e	=	2e		

6. A keying-in error occurring repeatedly per question must be penalised as one accuracy error only; repetitive errors per question must be encircled only.

ALLOCATION OF MARKS

1. Part A must be keyed in correctly.
2. Part B must be processed according to the instructions.

ACCURACY ERRORS = ALL KEYING-IN ERRORS
DISPLAY ERRORS = ALL DISPLAY ERRORS
PROCESSING ERRORS = ALL PROCESSING INSTRUCTIONS
3. REMEMBER: 1 mark is deducted per error – accuracy as well as display and processing.
